Founded in 1979, GrantWorks is a national provider of highly specialized grant administration, program management, and technical consulting services for state and local governments, non-profit organizations, and other community service organizations in the areas of infrastructure, housing, community and economic development, broadband, disaster recovery, mitigation, and resilience. Over the past 46+ years, the firm has secured and managed over \$12 billion in federal and state grant-funded projects while helping over 700 of our nation's communities become smarter, stronger, and more resilient.

Today, our client-centric professional staff continue GrantWorks' mission to provide high quality and cost-effective services focused on improving the communities where we live, work, and play.

Partner with us to leverage our extensive grant administration experience to help your community achieve its goals.

Our core focus on grant administration and technical assistance, coupled with our stellar success rate, makes the GrantWorks Team your ideal partner. We have a proven record of delivering results ahead of time and under budget to expedite the successful design and delivery of your critical projects, regardless of the grant program.

Our Services

Needs Assessment & Research

We begin by analyzing your community's priorities, existing resources, and funding gaps. This step ensures proposed projects align with your strategic goals and meet eligibility requirements for available grants.

Opportunity Tracking

Our team continuously monitors federal, state, and philanthropic funding announcements. We maintain a pipeline of opportunities and provide timely alerts so your community can act quickly on relevant grants.

Grant Research

We conduct in-depth research to identify grants that best match your project's objectives, eligibility criteria, and funding timelines. This includes reviewing program guidelines and historical award data.

Grant Writing (Application Development)

Our technical experts prepare complete, compliant, and compelling grant applications, including drafting narratives, developing budgets, and ensuring all required attachments and certifications are accurate and submitted on time.

Grant Administration

Once funding is secured, we manage the administrative requirements, including reporting, documentation, and communication with funding agencies. This prepares compliance and smooth execution.

Project Management

We oversee the implementation of grant-funded projects, ensuring milestones are met, deliverables are achieved, and resources are allocated efficiently.

Compliance & Monitoring

Our team ensures adherence to federal, state, and organizational regulations throughout the grant period. We conduct regular reviews to prevent issues and maintain audit readiness.

Closeout & Audit

At the end of the grant cycle, we manage the closeout process, including final reporting and financial reconciliation. We also prepare for audits, providing full compliance and transparency.
